

**STOCKHOLM, SWEDEN, SEP 19, 2019**

# ***YOUR INVITATION TO SECURITY ROUNDTABLE***

***WE INVITE YOU TO JOIN A GROUP OF CLOUD AND  
TELCO VIPS AT OUR EMAIL SECURITY ROUNDTABLE  
IN SWEDEN***

This event is aimed at organisations providing large-scale consumer or business email solutions; and particularly those with an interest in collaborating to ensure email is kept safe and secure.

Guest speakers from various organisations will appear at the event, to recap aspects discussed at previous events (e.g. DMARC, DANE, email encryption techniques and user account protection) as well as new topics, including email authentication protocols (SPF, DKIM, DMARC, ARC and BIMI).

At this event, we would specifically like to discuss potential initiatives that could help promote the adoption of these protocols, as well as improve email security in Sweden.

To allow for a meaningful and useful discussion, seating for this event will be limited to 20 participants.

**To confirm your participation, please RSVP by responding to this email as soon as possible.**
